Color-Safe®

PAVEMENT MARKING

Durable and High Definition Color

Color-Safe® is a Methyl Methacrylate (MMA) based product and is
the only UV stable material used for color pavement marking.

Color-Safe® is typically used for demarcation of bike lanes,
pedestrian areas, bus lanes and other specially designated areas.

A variety of supplied aggregates
will create appropriate skid
resistance for the application,
vehicular traffic and specification
requirements.

Easily applied by hand with
squeegees and rollers or with
automatic spray equipment,
Color-Safe® cures without
requiring external heat sources.

Color-Safe® is capable of full cure
in a wide range of temperatures
allowing for a longer marking
season.

Color-Safe® enhances your safety program
with high visibility color and increased service life.

Color-Safe®
PAVEMENT MARKING

Features and Advantages
- Excellent Color Retention and Durability
- High Visibility Color Increases Motorist Awareness
- Available in a Variety of Colors and Aggregate Sizes
- Easy Application
- Fast Cure Time (30 min at 70° F)
- Wide Application Temperature Range (40°-100° F)
- Low Life Cycle Cost
- Ability to Adhere to Both Concrete and Asphalt Surfaces

Application Process
Prepare Surface: Surfaces receiving Color-Safe® must be thoroughly cleaned and free of all dirt. Contaminates that might interfere with the proper adhesion of the material must be removed by sandblasting or shotblasting.

Mix: Color-Safe® is made up of three components (resin, powder hardener and aggregate) that must be mixed thoroughly for uniform curing and performance.

Apply: Color-Safe® is applied by either the mixed resin and aggregate method or the spray/broadcast aggregate method.

Refer to the technical data sheet for application details.

No special equipment is required for installation.

Applications
Transpo’s Color-Safe® can be used as an anti-skid surface and/or for demarcation.

- Bike Lanes and Bike Boxes
- Pedestrian Refuge and Plaza
- Toll Lanes
- Bus Lanes
- Airfields
- Crosswalks
- Roundabouts
- High Friction Surface Treatments

Standard and Custom Colors
Transpo’s Color-Safe® has many standard color options as well as custom colors available upon request.

- Bike Lane Green
- Bus Lane Red
- Buff
- Traffic Yellow
- White
- Black
- Pink
- Handicap Blue
- Orange
- Toll Lane Purple
- Adobe Red
