Step-Safe®

SURFACE APPLIED ADA MATS

ADA Compliant Detectable Warning Surface

Transpo's Step-Safe® ADA Compliant Detectable Warning Systems alert the disabled or visually impaired of approaching hazards particularly on sidewalks, curbs, subway and rail platforms. Step-Safe® is designed to meet the requirements of the ADA and ABA Accessibility Guidelines for Buildings and Facilities and is available in wet set tiles and surface applied mats.

Step-Safe® Surface Applied Mats are durable, easy to apply and able to maintain their slip resistance even after years of wear and tear. They are made of a composite resin that can be cut to fit any geometry and used for both new installations and retrofitting existing curbs. They provide durable UV resistant and through color to maintain the required safety feature of the detectable warning system.

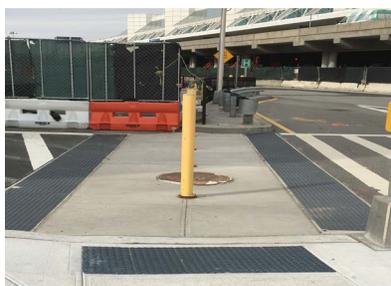

Step-Safe® Mats are installed with our supplied fast curing adhesive and do not require drilling or attachment hardware.

PHYSICAL PROPERTIES*		
Property	Units of Measure	Test
Compressive Strength	1,200 psi min	ASTM C579
Flexural Strength	175 psi min	ASTM D790
Bond Strength	>250 psi or concrete failure	ASTM C1583
Absorption	<0.1%	ASTM D570
Slip Resistance	0.80 Wet & Dry	ASTM C1028

* To be used as general guidelines only

No drilling is required, making it the easiest ADA mat to install.

SAFER TRANSPORTATION THROUGH INNOVATION

Step-Safe®

SURFACE APPLIED ADA MATS

Features and Advantages

- Easy to Install
- Maintenance Free
- High Definition UV Resistant Color
- Slip Resistant Surface
- Wheelchair Accessible
- Weather and Chemical Resistant
- Meets the requirements of the ADA and ABA Accessibility Guidelines for Buildings and Facilities

Application Process

Step-Safe® ADA mats are designed to be installed on existing concrete surfaces with the specially formulated supplied adhesive that forms a strong bond between the mat and a properly prepared concrete substrate.

Step-Safe® ADA mats are available in three sizes: 2'x3', 2'x4', and 2'x5.' Standard colors include safety yellow, charcoal gray, and brick red.

Step-Safe® ADA mats can be easily cut to fit specific project geometry. For dimension details refer to Step-Safe® ADA mat product drawings.

Installation instructions, video and drawings are available on the website.

Applications

- Ramp Cutouts
- Street Crossings
- Building Access Areas
- Train Platforms
- Bus Stops
- Pedestrian Islands
- Walkways
- Wheelchair Ramps
- Light Rail Crossings

Step-Safe® has a proven history of resistance to the effects of abrasion, weather and other environmental conditions.
